Date of birth: 15/09/2004 | **Nationality:** Azerbaijani | **Gender:** Male | **Phone number:** (+994) 559014435 (Mobile) | **Email address:** ayazdemirov123@gmail.com | **Website:** <https://ayaz-damirov-portfolio.netlify.app/> | **LinkedIn:** [Ayaz Damirov](#) | **Github:** [Ayaz Damirov](#) | **Address:** Absheron region, Khirdalan , 0100, Baku, Azerbaijan (Home)

• ABOUT ME

I am a qualified and create custom websites by harnessing web developer skills. Strong creative and analytical skills. Team player with attention to detail. My work is characterized by a unique blend of creativity and analytical precision.

• WORK EXPERIENCE

11/11/2024 – CURRENT Baku, Azerbaijan

FRONT-END DEVELOPER WORLD CUSTOMS ORGANIZATION

My responsibilities included:

- Contributed to the development of a platform enabling employers to create posts and comments related to their work, fostering better communication and collaboration.
- Implemented features for admins to efficiently accept or reject posts, along with integrating a system for viewing detailed statistics.
- Actively participated in improving team workflow, leading to increased speed and productivity, contributing to the successful completion of the first stage of the project.
- Applied front-end development best practices to ensure smooth user experience and responsive design across multiple devices.
- Technologies and libraries which i used: **React, JavaScript, HTML, CSS, CSS Modules**

08/2024 – 01/2025 Baku, Azerbaijan

FRONT-END DEVELOPER | INTERN AZERCONNECT

My responsibilities included:

- Worked on the Nar team, resolving bugs and developing new widgets in Nar website (<https://www.nar.az/>), and performing various tasks with a focus on accuracy and speed.
- Contributed to the development and maintenance of the eSIM Nar (<https://esim.nar.az/az>), where I was the only one on our team to have access to fix bugs and work on site changes.
- Worked closely with the team to resolve technical issues, ensuring a seamless user experience for customers on both the nar.az and esim.nar.az .
- Gained hands-on experience working in a professional environment, developing business communication skills, building strong relationships, and learning about emerging technologies.
- Developed strong problem-solving and time management skills that contributed to the efficiency and success of projects.
- Technologies and libraries which i used: **React, Next.js, JavaScript, HTML, CSS, SCSS, Tailwind, TypeScript**

07/2022 – 07/2024 Baku, Azerbaijan

CO-FOUNDER | WEB DEVELOPER 4DIGITAL

My responsibilities included:

- Co-founded 4Digital with a group of passionate individuals, driving the company's vision and success.
- Designed and developed professional websites for various businesses, including:
 - **Üfük Daimi İnkişaf Mərkəzi** – <https://www.ufuq.edu.az/site/>
 - **TESL Academy** - <https://www.tesl.az/site/enindex.html>

- Collaborated closely with teammates to ensure projects were delivered on time and met high-quality standards.
- Occasionally took on Social Media Marketing (SMM) projects as an additional role, managing campaigns for educational courses to enhance their online presence and engagement.
- Technologies and libraries which i used: **React, JavaScript, HTML, CSS, SCSS**

07/2023 – 10/2023 Baku, Azerbaijan

FRONT-END DEVELOPER FORTURAFFLE

I worked as a Front-End Developer at Forturaffle startup, a new raffle platform that began operations in Azerbaijan in 2023, offering users the chance to purchase tickets for various products and gift them to themselves or others. During my time at Forturaffle, I was responsible for developing and updating front-end designs to ensure they aligned with user requirements and business objectives.

Technologies and libraries which i used: **React, JavaScript, HTML, CSS, Redux, Formik**

● HONOURS AND AWARDS

10/11/2023

Winner 2nd place in DigiEduHack - Hack4World in Baku Hackathon - UNEC

In this competition, with the theme of application of technology in education, 3D and artificial intelligence, we have developed an educational platform that includes 3D models and experiments that students can interact with to improve the quality of their learning. Even through this project, students studying in schools

that do not have laboratories will be able to improve the subjects they have learned by doing experiments directly through that platform. ([Link](#))
